

## **Notice**

**On December 20, 2019, the District was informed by one of its contractors that a single document that contained a reference to some individually identifiable information from the student record of one student in the District had inadvertently been disclosed to a third party. The parents of that student were notified through legal counsel and the third party has confirmed that the no individually identifiable student information contained within that e-mail correspondence was reviewed and that the e-mail correspondence was destroyed/deleted.**
