Why Fairplay Middle School?

“The teachers, faculty, and entire staff care for each and every one of the children at Fairplay Middle School, and their families. This is shown in countless ways every day. Fairplay is more than a community, we are a family.”

Inside the Classroom

Fairplay Middle School is a small school with strong community ties. With approximately 564 students, teachers have the unique opportunity to build quick and immediate relationships with students and their families. These relationships assist in fostering a positive learning experience for all students where academic or social needs can be identified and accommodated.

Learning opportunities are maximized with creative and strategic planning that ensures mastery of all standards. With high expectations and accountability, teachers are equipping students with the skills they need to be successful. This success can be seen in Fairplay’s overall GMAS performance, which ranks them above both Douglas County and the state of Georgia in all areas. It is for these reasons, and more, that Fairplay continues to be a strong, multi-generational community middle school.
