About Our PreK-4y Program

Our Prek-4y program offers a nurturing early education program for four-year-old children with a focus on social skills, independence, small classroom experience and Kindergarten readiness. BECC provides your child a safe, secure and fun learning experience!

Kindergarten Preparation

Four year olds attend classrooms with certified teachers and educational assistants. The children are learning school routines, recognizing letters, numbers, shapes, colors, recognizing and writing their names, sorting, fine motor skills, and so much more. All with lots of self-selected play time!
