

THE BENEFITS OF ESTATE PLANNING

Nowadays, more and more people are preparing estate plan documents.

Why? Because they want to ensure that their decisions are honored and their family is protected.

If you have assets you wish to leave behind, want to ensure that your healthcare and treatment wishes are met, or have young children, you should consider creating one, too. There are several components to an estate plan that our attorneys can help you prepare:

WILL. A will ensures that your property will be distributed and your family will be cared for exactly as you wish. Without a will, the courts may decide how your property is distributed.

LIVING TRUST. A living trust allows you to distribute your assets and property while you are still alive, while at the same time reducing the amount of taxes you may have to pay.

LIVING WILL. This document specifies the types of medical treatments you want in the event that you become unable to express those wishes directly. A living will not only ensures that you get the care you want, but protects your loved ones from making difficult decisions on your behalf.

DURABLE POWER OF ATTORNEY. In the event you become incapacitated, this document allows you to designate someone you trust to make decisions on your behalf.
