

OSMS Technology Student Association

Parents and Guardians,

I am excited to announce the return of the Technology Student Association (TSA) at OSMS. The TSA is a national organization of students engaged in science, technology, engineering, and mathematics (STEM). This organization is broken down into chapters that compete once a year at a state conference in March. There is a wide variety of STEM competitions your child could participate in including but not limited to CO2 dragsters, gliders, coding, structural engineering, and much more!

We will be meeting once a week starting on Tuesday, November 15th. Meeting days each week will depend on students' schedules. If your child in grades 6-8 is interested, please have them contact Mr. Sagnella (Tech Ed/CAD) via email or in person before that time. I will give them the permission slip that they will need to have you sign and return to me in order to confirm their involvement in the club. **The deadline for permission slips to be turned in is Friday, November 11th.** I hope to hear from your child soon!

Thank you,

Nick Sagnella (nsagnella@oldsaybrookschoools.org)
