

History of
Booker T. Washington

August 2011 student entered Booker. T Washington STEM Academy. In this 21st global economy, an education with a STEM focus is a vital step towards providing students with the necessary technical literacy to enable them to access exciting careers of the future. BTW STEM Academy will provide a supportive environment at an early stage for students who attend the school and will build cumulative competencies in the areas of science, technology, engineering, and mathematics.

BTW Student Supports

Enrichment is for ALL

All BTW students receive weekly enrichment opportunities in the school's STEM lab. The lab is supported by a STEM teacher and in partnership with U of I.

Rtl Process

Development of a team plan to address skills academically and socially/emotionally for students that are performing below grade level norms.

Referrals can be teacher or parent based

Please refer to the Booker T Washington Student Handbook for additional questions or concerns on procedures and communication protocols for the 2019-20 school year.
