OVER-THE-PHONE INTERPRETATION VIA PHONE CONFERENCE CALLS FOR SCHOOLS

As a result of COVID-19 many meetings have moved to remote conference calls. The following step-by-step guide shows the process to use the over-the-phone interpretation service on virtual platforms that allow participants to dial-in (i.e. Google Meets, Microsoft Teams etc.). Please note you must already have a phone conference number in hand for this service to work. If there is no phone conference number, a remote on-site interpreter would be needed (visit tinyurl.com/TIUnitInfoHub for more information).

**STEP 1**
Make a reservation by dialing vendor (1-800-889-5921)

- Provide vendor with the details of your future call.
- You will be provided with a reservation number for your future call.
- Reservations should be made 1-3 days in advance to reduce wait times.

**STEP 2**
Dial vendor (1-800-889-5921) at start of scheduled meeting time (Provide reservation number if applicable)

- All participants, except for one school staff member, will dial into the phone conference line, as normal.
- One staff member will call the vendor and provide the reservation number.
- They will instruct the interpreter/operator to call into the phone conference line the same way they would call out to a parent.

**STEP 3**
Have the Meeting

- The interpreter will interpret consecutively.
- If the school staff member would like to use the computer rather than a phone, they may mute their phone and set it down, however they must remain on the call with the interpreter for DOE billing purposes.
