

November 10, 2022

Dear Parents,

I want to remind you of the procedures we use to make the decision to either hold or cancel school. Please remember the final decision as to whether or not children come to school is up to parents.

We monitor the weather forecasts daily; the decision making for a delay or snow day begins around 4:30 a.m. When a weather event is anticipated our transportation company, the director of buildings and grounds and the superintendent monitor the New Hampshire weather forecasts. The transportation company, the director of buildings and grounds and/or the superintendent are in touch with the Gilford road agent for road conditions, as well as plans for plowing, salting and sanding. The transportation company and the superintendent are in touch with the Gilmanton superintendent for information regarding the Gilmanton road conditions. Communication with the transportation company is very important and ongoing.

It is not uncommon for WMUR to be reporting conditions that may be true for much of the state but not targeted or accurate for our specific region. The decision to hold school is based on all of this information. School is held only in the event that the assessment indicates that buses can safely pass over the roadways. Safety is the number one priority in making the decision.

If the roads are not expected to be in good condition (in other words buses cannot pass safely), by the time bus routes normally begin but they are expected to improve to an acceptable standard within two hours, then the practice is to delay school for two hours. If it is determined that road conditions will not be safe by 7:30 a.m. then school will be canceled. Every effort is made to get a message to you between 5:30 and 5:45 a.m. in the form of a Parent Square post, voice mail or text message.

These messages are for your convenience; however, even with the most reliable system we are still dependent on satellite technology, electricity and the internet to get a message to you. There is always the possibility that any one of these technologies could have a problem. If you do not receive a Parent Square message please check Channel 9 - WMUR which lists the information about school delays or closings.

We are not a city district in a compact area. Our location in Belknap County is unique with drastic changes in elevation and some dirt roads. This is important for you to know because it is impossible for us to know the conditions on every road. That is why we ask parents to use their discretion. If, in a parent's estimation, the roads from their location are not safe then they should keep their children home from school. Students will be allowed to make up any work that has been missed.

Thank you very much for your support and collaboration.

Kind regards,

Kirk Beitler
Superintendent of Gilford Schools
