

East Newark Public School
World Language Curriculum
Grade 5

Revised 2022

Equity Statement:

East Newark Public School District does not discriminate on the basis of race, color, creed, religion, sex, ancestry, or national origin. The East Newark Board of Education ensures that all students enrolled in the schools of this district shall be afforded equal educational opportunities in strict accordance with the law. No student shall be denied access to or benefit from any educational program or activity on the basis of the student's race, color, creed, religion, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, gender identity or expression, socioeconomic status, or disability. The Board directs the Superintendent to allocate faculty, administrators, support staff members, curriculum materials, and instructional equipment supplies among classes of this district in a manner that ensures equivalency of educational opportunity throughout this district. The school district's curricula will eliminate discrimination, promote mutual acceptance and respect among students, and enable students to interact effectively with others, regardless of race, color, creed, religion, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, gender identity or expression, socioeconomic status, or disability.

The 2020 New Jersey Student Learning Standards in World Language:

The New Jersey Student Learning Standards – World Languages (NJSLS-WL) is a guiding document toward participation in the state's global society. As one of the most diverse states in the United States, New Jersey encompasses a multicultural, global citizenry. In all regions, there are people speaking and interacting with others in different languages; there are street signs in several languages and international enterprises conducting business in English and in a multitude of other languages. The New Jersey Department of Education, whose mission is to equip students with necessary knowledge, skills, and attitudes to participate successfully in the 21st century, embraces the state's multiculturalism and diversity, including the acquisition of diverse languages and cultures.

Vision:

An education in world languages fosters a population that:

- Cultivates communication and cultural understanding in more than one language with the levels of language proficiency that are required to function in a variety of occupations and careers in the contemporary workplace.
- Exhibits attitudes, values, and skills that indicate a positive disposition and understanding of cultural differences and that enhances cross cultural communication.
- Participates in local and global communities with people who speak languages other than English to address social justice issues and other global problems.
- Values language learning for its long-term worth in advancing personal, work-related, and/or financial success in our increasingly interconnected world.

The students of the East Newark Public School District will need to communicate in more than one language to live and work in a culturally diverse society and prosper in a global economy. Therefore, learning world languages is an essential goal for these students. In addition, the knowledge and exposure that will come from learning a new language along with its culture will help develop students' acceptance of diverse citizens that reside in the East Newark community and

surrounding areas. It is the mission of the East Newark Public School District to academically prepare students for the 21st century but most importantly to promote well rounded citizens that will prosper in a world of unified acceptance amongst all cultures.

Course Description:

The students of East Newark Public School District will be exposed to Hispanic culture through an understanding of Spanish vocabulary. Spanish instruction at the elementary school level provides students with an exposure to thematically organized vocabulary, simple grammar structures, and cultural elements that serve as the foundation for more rigorous formal instruction at the middle and high school levels. Spanish lessons at the elementary school level are designed to afford students an opportunity to acquire confidence in speaking and writing simple Spanish words and phrases, and recognizing these words and phrases when they are spoken. Some lessons develop students' language skills in a recursive manner, as they provide cumulative reinforcement of previously introduced material. Designated units are identified for each grade level to permit the spiraling and reinforcement of skills leading to proficiency. By the end of Grade 5, students will have acquired a basic set of thematically-based vocabulary and idioms to discuss basic daily events, greet people, ask and respond to simple questions, identify school-based locations, and understand calendar and number words. The curriculum aims to engage students in authentic communication while developing their appreciation of a different cultural medium. Instruction reinforces language concepts in creative and dynamic ways that support ongoing language acquisition and a respect for diverse cultural practices by using various audio and visual materials. Students will develop basic writing skills through different exercises and simple note taking that strengthen their ability to synthesize language and apply it in new contexts. Spanish instruction is aligned with the New Jersey Student Learning Standards.

Students completing a course of foreign language study at the East Newark Public School will demonstrate course-appropriate outcomes in the three basic modes of communication (NJ Department of Education, 2020):

- *Interpretive communication:* Students will understand, interpret, and analyze what is heard, read, or viewed on a variety of topics.
- *Interpersonal communication:* Students will interact and negotiate meaning in spoken, signed, or written conversations to share information, feelings, reactions, and opinions.
- *Presentational Communication:* Students will present information, concepts, and ideas to inform, persuade, explain, and narrate on a variety of topics using appropriate media and adapting to various audiences of listeners, readers, or viewers.

Course Modifications:

The teacher will determine with the assistance of general education teachers, interventionists, ESL teachers, teacher aides, and/or special education teachers, what modifications will be made for their students. Such examples of modifications can include, but not be limited to:

- Extended time as needed
- Modification of tests and quizzes
- Preferential seating

- Alternative/Formative assessment (projects)
- Effective teacher questioning (ranging from simple recall to higher order critical thinking questions)
- Supplemental materials
- Cooperative learning
- Teacher tutoring
- Peer tutoring
- Differentiated Instruction

Interdisciplinary Connections:

Students will be exposed to a learning environment and create projects that involve content from different subject areas, (math, science, social studies & ELA). Examples of the interdisciplinary connections are creating Art to represent a country, using numbers to craft a word problem in the targeted language, creating stories using newly acquired vocabulary, maintaining and presenting a journal of new learning in the targeted language. These artifacts will integrate other disciplines while fostering a transfer of learning and use of critical thinking skills.

Grade 5 Scope and Sequence:
