Green Cleaning

• Green Cleaning to me means:

• Cleaning to protect human health without harming the environment.

• What does Green Cleaning mean to you?
Up date on changes

• Objective is to inform all staff on:
  • New products
  • What these new products do
• What you can use these products on

Information about Sani-Shield

• No-toxic, water based, green technology
• Bacteria will not grow for 5 to 7 days on applied surface.
• Safe on food contact surfaces and all public surfaces
• Also is a H2O2 cleaner
• Fit’s in with our Green program
Information on Sani-Shield

How to use:

• Can be used on all table tops, counters, chairs, door knobs and any high touch area.

• Can be used on keyboards by applying to a cloth and wiping.

• After applying, let air dry for best results.

• May be use 2 to 3 times per week if needed.
Consume Eco-lyzer

• This product is used in rest rooms to help prevent/reduce smells.
• It works by a quaternary-bases disinfectant that kills pathogenic and odor causing bacteria.
• Applied with mop or course spray.
• Safe – fits in with our Green program
Future Changes

• We will be replacing Charge Bowl cleaner with Spartin NABC. It is eco friendly and fits into our green plan.
• We will continue to replace all old paper towel and toilet paper dispensers over the next year in all buildings.
• As we change things, we always need to remember that we must use up old products first. It is the eco friendly and money friendly thing to do.
