

701.6

**INCOME: STATE AND FEDERAL FUNDS**

Every effort will be made by the administration to take advantage of federal and state funds. However, the overriding factor should be the specific need of our students, rather than the availability of a program. The Board favors noncategorical funds, since the Board feels it is capable of determining the needs of the students in our community rather than leaving this determination to Washington or Albany.

The Board may on some occasions designate another agency as the local educational agency to carry out a title program.

APPROVED: BOARD OF EDUCATION

DATE: July 7, 1992
