*This form serves as a "Notice of Non-Compliance" pursuant to section 120.695, Florida Statutes. Items marked as "out" violate one or more of the requirements of Chapter 64E-11, the Florida Administrative Code or Chapter 381.0072, Florida Statutes. Violations must be corrected within the time period indicated above. Continued operation of this facility without making these corrections is a violation. Failure to correct violations in the time frame specified may result in enforcement action being initiated by the Department of Health.*

**Violations Comments**

Violation #48. Ware washing: installed, maintained, & used; test strips  
Observed sanitizer in three compartment sink at about 100ppm per inspector strips, facility's strips did not show a reading. Sanitizer remade at 200ppm per inspector test strips. When using facility's test strips, still not getting a appropriate sanitizer reading-about 100ppm. Test strips not to expire until 2023 (possible faulty strips). Replace test strips and look to see if sanitizer line is crimped, enough sanitizer reaching sink. Person in charge previously stated that reading was at 300ppm yesterday. Corrected on site.

CODE REFERENCE: 64E-11.003(4). Warewashing facilities must be approved, available, maintained, effective, and used for cleaning and sanitizing food-contact surfaces and equipment. Test strips are available and used to verify the solution is at a concentration necessary to achieve sanitization.
