

COORDINATOR, HEALTH SERVICES

GENERAL RESPONSIBILITIES

Plan, supervise and coordinate the overall health services program for students. Address the overall professional needs and concerns of the nursing staff and provide guidance as necessary and appropriate.

ESSENTIAL FUNCTIONS

(These are intended only as illustrations of the various types of work performed. The omission of specific duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.)

- Provide orientation, supervision, and professional consultation for each school's health program.
- Develop protocols and guidelines for nursing procedures used in the schools.
- Act as budget manager for the health services/school nurses' program: planning, estimating, writing, and expending.
- Alert school and central office personnel about health regulations, trends, and problems.
- Assist in the screening, interviewing, and selection of school nurses and assistants
- Provide orientation and ongoing advisement for new school nurses.
- Plan in-service and professional development activities which will keep school nurses current in their specialty area and in problems and issues affecting health services.
- Coordinate the procurement, maintenance, and repair of materials, equipment, and supplies used in school clinics.
- Assist and advise school nurses in the implementation of screening programs.
- Make routine visits to school clinics for on-site observation and consultation with nurses and administrators; assess the functioning level of school clinics.
- Work with school nurses to address general and individual health service needs, concerns, and problems.
- Coordinate health services for summer school programs.
- Interpret the school health program for school personnel, parents, professionals, and community agencies.
- Act as a liaison between public health and the schools in the areas of control of communicable diseases and public health regulations.
- Work closely with school staffs to meet the special, complicated, and particular medical needs of individual students.
- Update and revise the Health Services Manual; maintain the nursing procedures manual.
- Coordinate provision of CPR instruction, first aid classes, and any other instruction required for school nurses.
- Coordinate the scheduling of students needing physical examinations for child study and special education placement.
- Prepare state and locally required reports.
- Arrange the rotation of nursing students from local colleges and schools in school clinics.
- Coordinate and serve on the Virginia Beach School Health Advisory Board.
- Serve on boards and committees, within the school division and throughout the community and area, which are related to the health services program.
- Advise special education personnel regarding medically needy students.
- Participate in the Capital Improvement Program, planning for new school clinics and the remodeling of existing facilities.
- Provide on-going, annual training for school nurses regarding OSHA standards and exposure to bloodborne pathogens and other potentially infectious body materials.
- Work/participate actively with the school/community/city safety efforts and planning.
- Perform related work as required.
