

## Grading Practices

School: Bayside High School

Subject(s): Physics

Grade Level: All

### Homework

Homework will be based out of the textbook, which is online, however the work turned in will be on the student's own paper and represent their work, if they need help they should request tutoring hours.

### Late Work

A mark of late "La" will appear in the grade book to notate that an assignment was not turned in at the appropriate time. A mark of missing "Mi" will appear in the grade book to notate that work was assigned and/or due on a day the student was absent. Both will be subject to lost points based on teacher discretion.

### Explanation of Zeroes

Zeros will be possible when work is due by the end of class and not submitted by students who attended class. If more time is necessary, it may be offered to the whole class or to specific students who have extenuating circumstances.

All other assignments will receive a grade which represents the amount of work completed and/or correctly worked to the right solution.

### Reassessment

There will not likely be room for re-assessment during normal class hours. If a student requests tutoring, they may be offered to retake a heavily weighted assessment only after demonstrating they understand better the content on that assessment.

### Make-up Work

Students have two class periods to SCHEDULE a time to make up work which is agreeable with their teacher, from the day they return to class. It is the responsibility of the student to get notes from classmates and determine if they missed a graded assignment.

## Extra Credit

There will be no extra credit category in the grade book, some assignments will allow scores greater than 100%, that will usually be the only source of extra credit, so take advantage of it.
