Assistant Principal

December 9, 2022

Dear Math Team Sponsor:

Hayden Middle School will host its annual mathematics tournament on Saturday, February 04, 2023. Schools will be placed in one of two divisions based on grade level enrollment. All individuals and private schools will be entered in the large school division. This year there will be four levels of competition: Fifth grade, Sixth grade, Pre-Algebra, and Algebra 1. Students should be enrolled in a course which corresponds to the level on which they compete.

The written test will consist of 25 multiple choice questions and three tie breakers. The score will be four times the number right minus the number wrong. Four designated team members will participate in a ciphering contest, having five questions each. Points will be awarded for correct answers submitted during each of the three 30-second intervals. (5 pts., 3 pts., 1 pt.)

Trophies will be presented to the top 5 teams and top ten individuals for each level in each division that has more than five schools participating. Trophies will be presented to the top three teams and top 10 individuals for each level in each division that has less than 5 teams. Team awards will be based on the top four written scores plus the total ciphering points of the team members. Team awards will only be given to teams that have at least 4 members competing. Individual awards will be based only on the written test.

The registration fee is \$8.00 per student. Please return the enclosed registration form, and payment (if possible) by January 18, 2023. A \$10 late fee per grade level must be included for registration forms postmarked after January 18, 2023. No entries will be accepted after January 25, 2023. Scantron forms and room assignments will be mailed to participating schools prior to the tournament. We hope to see you at Hayden Middle School on February 4, 2023!

Sincerely,
Bethany Eddy & Emily Storey
Tournament Directors
